| Hersteller               | EXBIO                                                                                                                                                                                                  |
| Kategorie                | Antikörper                                                                                                                                                                                             |
| Applikation              | FC                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human, Porcine                                                                                                                                                                                         |
| Immunogen                | TROP2-transfected CHO cells                                                                                                                                                                            |
| Konjugation              | APC                                                                                                                                                                                                    |
| Produktbeschreibung      | TROP2 is a cell surface receptor that transduces calcium signals. It belongs to carcinoma-associated antigens. Mutations of TROP2 have been associated with gelatinous drop-like corneal dystrophy.... |
| Klonalität               | Monoclonal                                                                                                                                                                                             |
| Klon-Bezeichnung         | [TrMab-6]                                                                                                                                                                                              |
| Isotyp                   | Mouse IgG2b kappa                                                                                                                                                                                      |
| Puffer                   | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                |
| Target-Kategorie         | TROP2                                                                                                                                                                                                  |

|                        |                                                                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                       |
| Anwendungsbeschreibung | Flow cytometry: The reagent is designed for analysis of human blood cells using 10 µl reagent / 100 µl of whole blood or 10 <sup>6</sup> cells in a suspension. The content of a vial (1 ml) is sufficient for 100 tests. |
