| Applikation              | ELISpot, FACS, FC, FluoroSpot, IHC, WB                                                                                                                                                                                                          |
| Produktbeschreibung      | This peptide pool with 25 peptides covers all mutations in the Spike Glycoprotein derived from the kappa variant B.1.617.1 of SARS-CoV-2 which emerged in India in October 2020. One unit allows the stimulation of $2,5 \times 10^8$ cells.... |
| UniProt                  | <a href="#">P0DTC2</a>                                                                                                                                                                                                                          |
| Reinheit                 | Each peptide ESI-MS checked, pool is purified by solid phase extraction                                                                                                                                                                         |
