Product Datasheet

Jurkat cells, Unconjugated NMB-X1009

Artikelname	Jurkat cells, Unconjugated
Artikelnummer	NMB-X1009
Hersteller Artikelnummer	X1009
Alternativnummer	NMB-X1009
Hersteller	NordicMubio
Kategorie	Proteine/Peptide
Applikation	WB
Konjugation	Unconjugated
Produktbeschreibung	Total cell lysates are useful as both positive and negative controls in immunoblotting. A431, a human epidermoid carcinoma cell line, and the EGF-stimulated A431 lysates are used as negative and positive controls, respectively, when studying the phos...
Konzentration	See vial for concentration
Puffer	Provided as solution in Laemmli electrophoresis sample buffer. Samples need to be boiled for 3-5 minutes, before loading the gel.
Formulierung	Unconjugated
Formel	Provided as solution in Laemmli electrophoresis sample buffer. Samples need to be boiled for 3-5 minutes, before loading the gel.
Anwendungsbeschreibung	Suggested use: A volume of 10-25ul is suggested for immunoblotting.
