| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Antibody raised against synthetic peptide corresponding to amino acids 38 to 52 of the human protein phosphatase 4R1.                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Protein serine/threonine phosphatase 4R1 is a protein which is associated with the catalytic subunit of protein serine/threonine phosphatase 4 (PP4C) and may possibly regulate the activity of the enzyme. PP4C is 65% identical to PP2AC at the amino ac... |
| Konzentration            | See vial for concentration                                                                                                                                                                                                                                    |
| Isotyp                   | IgG                                                                                                                                                                                                                                                           |
| UniProt                  | <a href="#">Q8TF05</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                                                                |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | Provided as solution in phosphate buffered saline with 0.08% sodium azide                                                                                                                      |
| Reinheit               | Ammonium Sulfate Precipitation                                                                                                                                                                 |
| Formulierung           | Unconjugated                                                                                                                                                                                   |
| Formel                 | Provided as solution in phosphate buffered saline with 0.08% sodium azide                                                                                                                      |
| Anwendungsbeschreibung | <p>Detects protein phosphatase X/A (PP4 R1) protein by Western blot.</p> <p>Detects a 125 kDa band in bovine testes lysate. Optimal concentration should be evaluated by serial dilutions.</p> |
