| Artikelname              | Bovine Serum albumin Fr.V, conjugated with FITC                                                                                                                                                                                                               |
| Artikelnummer            | NMB-BSA/FITC                                                                                                                                                                                                                                                  |
| Hersteller Artikelnummer | BSA/FITC                                                                                                                                                                                                                                                      |
| Alternativnummer         | NMB-BSA/FITC                                                                                                                                                                                                                                                  |
| Hersteller               | NordicMubio                                                                                                                                                                                                                                                   |
| Wirt                     | Bovine                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Konjugation              | FITC                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | As an efficient counterstain for cell an tissue substrates with immunoconjugates with a label contrasting with the greenish-yellow fluorescence of BSA/FITC. The purpose of counterstaining is to enhance the optical contrast of the immunospecific stain... |
| Puffer                   | Fluorochrome-coupled bovine serum albumin, fraction V, lyophilized from a solution in phosphate buffered saline (PBS pH 7.2). It is reconstituted by adding 1 ml sterile distilled water.                                                                     |
| Formulierung             | FITC                                                                                                                                                                                                                                                          |
| Formel                   | Fluorochrome-coupled bovine serum albumin, fraction V, lyophilized from a solution in phosphate buffered saline (PBS pH 7.2).                                                                                                                                 |
| Anwendungsbeschreibung   | ELISA,Immunocytochemistry,Immunohistochemistry (frozen),(In)direct immunofluorescence.                                                                                                                                                                        |
