Product Datasheet

Chicken anti Human placenta-derived cytonectin (not affinity purified), Gallus NMB-AHC

Artikelname	Chicken anti Human placenta-derived cytonectin (not affinity purified), Gallus
Artikelnummer	NMB-AHC
Hersteller Artikelnummer	AHC
Alternativnummer	NMB-AHC
Hersteller	NordicMubio
Wirt	Gallus
Kategorie	Antikörper
Applikation	ELISA, WB
Produktbeschreibung	Chicken anti Human placenta-derived cytonectin (not affinity purified), Gallus 10 mg...
Konzentration	See vial for concentration.
Puffer	Phosphate buffered saline, pH 7.2 with 0.05% sodium azide
Quelle	Cytonectin was isolated from a cell lysate of normal human third trimester placenta by reversed-order OFarrell gel electrophoresis (ROOGE). Purified cytonectin was used to immunize a chicken. After multiple immunizations, eggs were collected and IgY was p
Reinheit	Egg yolk-derived purified IgY (non affinity purified)
Formulierung	Egg yolk-derived purified IgY

Formel	Phosphate buffered saline, pH 7.2 with 0.05% sodium azide
Anwendungsbeschreibung	For immunoblotting, antibody is diluted to a 1 mg/ml stock solution. This is diluted 1:1000 immediately prior to blot application. The bound primary antibody is detected by HRP-goat anti-chicken IgY Fc fragment as secondary antibody, followed by any chemiluminescence protocol. The anti-cytonection antibody is also useful for immunomicroscopy. Most tissues have some cytonection detectable. Many pathologic tissues, especially neoplastic cells, show increased cytonection expression. The antigens are highly evolutionarily conserved in human, rodent, and avian tissues.
