Product Datasheet

Mouse anti Horseradish Peroxidase, IgG1, Clone: [NI 91], Monoclonal NMB-MA/PO

Artikelname	Mouse anti Horseradish Peroxidase, IgG1, Clone: [NI 91], Monoclonal
Artikelnummer	NMB-MA/PO
Hersteller Artikelnummer	MA/PO
Alternativnummer	NMB-MA/PO
Hersteller	NordicMubio
Wirt	Mouse
Kategorie	Antikörper
Produktbeschreibung	The reactivity of the antiserum is directed to horseradish peroxidase as tested in direct binding enzyme immunoassay, ELISA and immunoblotting. As a control in the tests where mouse IgG1 (with irrelevant specificity) should be used to show the presen...
Klonalität	Monoclonal
Klon-Bezeichnung	[NI 91]
Isotyp	IgG1
Puffer	Delipidated, heat inactivated, lyophilized, stable whole ascites. IgG concentration is 1.0 mg/ml. No foreign proteins added. Reconstitute the lyophilized ascites by adding 0.5 ml sterile distilled water.
Quelle	immunogen: Highly purified horseradish peroxidase.
Formel	Delipidated, heat inactivated, lyophilized, stable whole ascites. IgG concentration is 1.0 mg/ml. No foreign proteins added.

Anwendungsbeschreibung	Indirect immunofluorescence,ELISA.
