Mouse anti Human secretory component (free and bound), conjugated with FITC, IgG1, Clone: [NI 194-4 A89-039], Monoclonal NMB-MAHU/SC/FITC

Artikelname	Mouse anti Human secretory component (free and bound), conjugated with FITC, IgG1, Clone: [NI 194-4 A89-039], Monoclonal
Artikelnummer	NMB-MAHU/SC/FITC
Hersteller Artikelnummer	MAHu/SC/FITC
Alternativnummer	NMB-MAHU/SC/FITC
Hersteller	NordicMubio
Wirt	Mouse
Kategorie	Antikörper
Spezies Reaktivität	Human
Konjugation	FITC
Format	IgG
Spezifität	Secretory Component - free and bound determinants
Minimale Kreuzreaktivität (MinX)	no cross-adsorbtion
Produktbeschreibung	The reactivity of the antiserum is restricted to determinants on the secretory component as tested in haemagglutination, haemagglutination inhibition, indirect binding enzyme immunoassay, competitive inhibition enzyme immunoassay, immunoblotting, imm...
Klonalität	Monoclonal
Klon-Bezeichnung	[NI 194-4 A89-039]

Isotyp	IgG1
UniProt	P01833
Puffer	Purified monoclonal mouse IgG1 kappa conjugated with fluorescein isothiocyanate, lyophilized from a solution in phosphate buffered saline (pH7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added. Reconstitut
Quelle	Highly purified secretory component isolated from human milk.
Formulierung	FITC
Formel	Purified monoclonal mouse IgG1 kappa conjugated with fluorescein isothiocyanate, lyophilized from a solution in phosphate buffered saline (pH7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added.
Antibody Type	Secondary Antibody
Anwendungsbeschreibung	ELISA,Immunocytochemistry,Immunohistochemistry (frozen),(In)direct immunofluorescence.
