| Wirt                     | Rabbit                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                      |
| Konjugation              | Biotin                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrophoresis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and...   |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [Polyclonal]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P05804</a>                                                                                                                                                                                                                                          |
| Puffer                   | Purified hyperimmune rabbit IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added. It is reconstituted by adding 1.0 ml sterile distilled |

|                        |                                                                                                                                                                                                          |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quelle                 | beta-Glucuronidase is isolated and purified from Escherichia coli. Freund's complete adjuvant is used in the first step of the immunization procedure.                                                   |
| Formulierung           | Biotin                                                                                                                                                                                                   |
| Formel                 | Purified hyperimmune rabbit IgG lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. No foreign protein added. |
| Anwendungsbeschreibung | ELISA, Immunocytochemistry, Immunohistochemistry (paraffin), Dot blot, Immunoblotting.                                                                                                                   |
