Product Datasheet

Rabbit anti Human beta-2 glycoprotein 1, Clone: [Polyclonal], Monoclonal NMB-RAHU/B2GP1

Artikelname	Rabbit anti Human beta-2 glycoprotein 1, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/B2GP1
Hersteller Artikelnummer	RAHu/B2GP1
Alternativnummer	NMB-RAHU/B2GP1
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	In bidimensional immunoelectrophoresis a single precipitin line is obtained and shows a reaction of full identity with the purified immunogen. The antiserum does not react with any other protein component of human serum or plasma. In precipitating te...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P02749
Puffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized ant
Quelle	Beta-2 glycoprotein 1 has a molecular weight of 40,000. The mean concentration in adult serum is about 200 µg/ml. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formel	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis use 2 µl human plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl plasma samples (neat and serially diluted) in 2 mm diameter peripheral wells. In electroimmunodiffusion use 1 percent antiserum in the gel. Measured by quantitative precipitin analysis. The amount of beta2 glycoprotein 1 precipitated by 1 ml antiserum is approximately 0.2 mg.
