| Wirt                     | Rabbit                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                      |
| Produktbeschreibung      | The reagents were evaluated for potency, purity and specificity using most or all of the following techniques: immunoelectrophoresis, cross-immunoelectrophoresis, single radial immunodiffusion (Ouchterlony), block titration, ELISA, immunoblotting and...   |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [Polyclonal]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P00889</a>                                                                                                                                                                                                                                          |
| Puffer                   | Purified hyperimmune rabbit IgG antibodies lyophilised from a solution in phosphate buffered saline (PBS, pH 7.2), stabilized with dextran. No preservative added, as it may interfere with the antibody activity. No foreign protein added. It is reconstitute |
| Quelle                   | Citrate lyase isolated and purified from Enterobacter aerogenes. Freund's complete adjuvant is used in the first step of the immunization procedure.                                                                                                            |

|                        |                                                                                                                                                                                                                                              |
