| Hersteller               | Isca Biochemicals                                                                                                                                                                                                                                             |
| Kategorie                | Biochemikalien                                                                                                                                                                                                                                                |
| Produktbeschreibung      | TIP, or TRPV1 inhibitory peptide (TIP) is a TRPV1 inhibitor corresponding to amino acids 701-709 of the TRPV1 receptor, with Thr705 included as a key component as phosphorylation of this residue causes conformational change and opening of the TRPV1 c... |
| Molekulargewicht         | 1029.58                                                                                                                                                                                                                                                       |
