## Product Datasheet

### Cytokeratin 3 Monoclonal Antibody [AE5] - Fluorescein (FITC) / 50ul, IgG1, Mouse IMQ-IQ290FITC

|                          |                                                                                  |
|--------------------------|----------------------------------------------------------------------------------|
| Artikelname              | Cytokeratin 3 Monoclonal Antibody [AE5] - Fluorescein (FITC) / 50ul, IgG1, Mouse |
| Artikelnummer            | IMQ-IQ290FITC                                                                    |
| Hersteller Artikelnummer | IQ290FITC                                                                        |
| Alternativnummer         | IMQ-IQ290FITC-0.05,IMQ-IQ290FITC-50                                              |
| Hersteller               | ImmuQuest                                                                        |
| Wirt                     | Mouse                                                                            |
| Kategorie                | Antikörper                                                                       |
| Applikation              | FC, ICC, IHC-P                                                                   |
| Spezies Reaktivität      | Bovine, Human, Rabbit                                                            |
| Immunogen                | Rabbit corneal epithelial keratins                                               |
| Produktbeschreibung      | Mouse Anti-Cytokeratin 3 [AE5] Antibody: Fluorescein (FITC)...                   |
| Klonalität               | Monoclonal                                                                       |
| Konzentration            | 1mg/ml                                                                           |
| Klon-Bezeichnung         | [AE5]                                                                            |
| Isotyp                   | IgG1                                                                             |
| NCBI                     | <a href="#">3850</a>                                                             |

|                        |                                                                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pubmed                 | <a href="https://pubmed.ncbi.nlm.nih.gov/33028837" rel="nofollow" target="_blank">33028837</a>                                                                                    |
| UniProt                | <a href="#">P12035</a>                                                                                                                                                            |
| Puffer                 | Purified antibody conjugated to Fluorescein using Innova Biosciences Lightning-Link, supplied in Phosphate buffered saline (PBS) containing 0.09% Sodium azide                    |
| Reinheit               | Protein G purified                                                                                                                                                                |
| Formulierung           | Purified antibody containing PBS 0.1% sodium azide,                                                                                                                               |
| Target-Kategorie       | Cytokeratin 3                                                                                                                                                                     |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                               |
| Application Verdünnung | Optimal antibody dilution should be determined by titration, however as guideline try at WB: 1/1000 - 1/3000. Predicted molecular weight: 65 kDa.Flow Cyt: Use 2µg for 106 cells. |
