| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length CKM protein                                                                                                                                                                                                                           |
| Produktbeschreibung      | T cell proliferation and lymphokine production are triggered by occupation of the TCR by antigen, followed by a costimulatory signal that is delivered by a ligand expressed on antigen presenting cells. The B7-related cell surface proteins CD80 (B7-1)... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CKMM/3341]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 43kDa                                                                                                                                                                                                                                                         |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">1158</a>                                                                                                                                                   |
| UniProt                | <a href="#">P06732</a>                                                                                                                                                 |
| Formulierung           | 200ug/ml of Ab purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                    |
| Anwendungsbeschreibung | ELISA (For coating, order Ab without BSA), Optimal dilution for a specific application should be determined.                                                           |
