| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                              |
| Wirt                     | Mouse                                                                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                      |
| Applikation              | WB                                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                           |
| Immunogen                | Recombinant human full-length protein                                                                                                                                                                                                                           |
| Produktbeschreibung      | Gelsolin (also known as brevin, Actin-depolymerizing factor or ADF), a protein of leukocytes, platelets and other cells, severs Actin filaments in the presence of submicromolar calcium, thereby isolating cytoplasmic Actin gels. It is a calcium-regulate... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [CPTC-Gelsolin-1]                                                                                                                                                                                                                                               |
| Molekulargewicht         | ~90kDa                                                                                                                                                                                                                                                          |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                            |

|                        |                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">2934</a>                                                                                                                                                   |
| UniProt                | <a href="#">P06396</a>                                                                                                                                                 |
| Formulierung           | 200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                    |
| Anwendungsbeschreibung | Western Blot (1-2ug/ml), Optimal dilution for a specific application should be determined.                                                                             |
