| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IF                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Canine, Human, Monkey, Primate, Rodent                                                                                                                                                                                                                        |
| Immunogen                | Activated human peripheral blood mononuclear cells                                                                                                                                                                                                            |
| Produktbeschreibung      | This MAb reacts with the HLA-DRB1 antigen, a member of MHC class II molecules. It does not cross react with HLA-DP and HLA-DQ. It binds a conformational epitope on HLA-DR, which depends on the correct folding of the heterodimer. This MAb has been rep... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [L243]                                                                                                                                                                                                                                                        |
| Molekulargewicht         | ~28kDa (beta chain)                                                                                                                                                                                                                                           |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |
| NCBI                     | <a href="#">3123</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P01911</a>                                                                                                                                                 |
| Formulierung           | 200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                    |
| Anwendungsbeschreibung | Flow Cytometry (1-2ug/million cells), Immunofluorescence (1-2ug/ml), Optimal dilution for a specific application should be determined.                                 |
