| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human MIF protein (exact sequence is proprietary)                                                                                                                                                                                     |
| Produktbeschreibung      | Macrophage migration inhibitory factor, known as MIF or glycosylationinhibiting factor, is a secreted, homotrimeric, pro-inflammatory cytokine that modulates macrophage and T cell function and is an important regulator of host response to infection. ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MIF/6278]                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 13kDa                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                                                                                                                |
