| Alternativnummer         | NBT-5551-MSM1X-P0-20,NBT-5551-MSM1X-P0-100                                                                                                                                                                                                                    |
| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human Perforin protein fragment (around aa 413-552) (exact sequence is proprietary)                                                                                                                                                               |
| Produktbeschreibung      | Perforin is a pore-forming protein that leads to osmotic lysis of the target cells and subsequently enables granzymes to enter the target cells and activate apoptosis. Perforin has structural and functional similarities to complement component 9 (C9)... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SPM434]                                                                                                                                                                                                                                                      |
| Molekulargewicht         | 75kDa                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                        |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">5551</a>                                                                                                                                                   |
| UniProt                | <a href="#">P14222</a>                                                                                                                                                 |
| Formulierung           | 200ug/ml of Ab Purified from Bioreactor Concentrate by Protein A/G. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml. |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                    |
| Anwendungsbeschreibung | ELISA (For coating, order Ab without BSA), Optimal dilution for a specific application should be determined.                                                           |
