| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Canine, Hamster, Human, Mouse, Rat                                                                                                                                                                                                                            |
| Immunogen                | Recombinant full-length human UCHL1 protein                                                                                                                                                                                                                   |
| Produktbeschreibung      | This MAb reacts with a protein of 20-30kDa, identified as PGP9.5, also known as ubiquitin carboxyl-terminal hydrolase-1 (UchL1). Initially, PGP9.5 expression in normal tissues was reported in neurons and neuroendocrine cells but later it was found in... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [UCHL1/4556R]                                                                                                                                                                                                                                                 |
| Molekulargewicht         | 20-30kDa                                                                                                                                                                                                                                                      |
| NCBI                     | <a href="#">7345</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                               |
