| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human CK8 and CK8 proteins                                                                                                                                                                                                            |
| Produktbeschreibung      | Cytokeratin 8 (CK8) belongs to the type II (or B or basic) subfamily of high molecular weight cytokeratins and exists in combination with cytokeratin 18 (CK18). This MAb cocktail recognizes all simple epithelia including glandular epithelium, for exa... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [KRT8.18/4997R]                                                                                                                                                                                                                                               |
| Molekulargewicht         | 52.5kDa (CK8), 45kDa (CK18)                                                                                                                                                                                                                                   |
| NCBI                     | <a href="#">3856</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                                |
