| Hersteller               | Rockland Immunochemicals                                                                                                       |
| Kategorie                | Antikörper                                                                                                                     |
| Applikation              | ELISA                                                                                                                          |
| Konjugation              | FITC                                                                                                                           |
| Klonalität               | Monoclonal                                                                                                                     |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                                                                           |
| Klon-Bezeichnung         | [MG1]                                                                                                                          |
| Isotyp                   | IgG1                                                                                                                           |
| Puffer                   | 0.02 M Potassium Phosphate, 0.5 M Sodium Chloride, pH 7.2                                                                      |
| Quelle                   | Mouse                                                                                                                          |
| Formulierung             | Lyophilized                                                                                                                    |
| Application Verdünnung   | ELISA: User Optimized, FLISA: User Optimized, Flow Cytometry: 1:1000-1:5000, IF Microscopy: User Optimized, WB: User Optimized |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Mouse IgG1 isotype has been tested in ELISA and is designed for immunofluorescence microscopy, flow cytometry, fluorescence based plate assays (FLISA), fluorescent western blotting, multiplex analysis, including multicolor imaging, utilizing various comm |
