| Hersteller Artikelnummer         | 111-1102                                                   |
| Alternativnummer                 | ROC-111-1102                                               |
| Hersteller                       | Rockland Immunochemicals                                   |
| Wirt                             | Goat                                                       |
| Kategorie                        | Antikörper                                                 |
| Applikation                      | ELISA,IHC,WB                                               |
| Spezies Reaktivität              | Rabbit                                                     |
| Immunogen                        | Rabbit IgG whole molecule                                  |
| Konjugation                      | Unconjugated                                               |
| Format                           | Antiserum                                                  |
| Spezifität                       | IgG (H+L)                                                  |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                        |
| Klonalität                       | Polyclonal                                                 |
| Konzentration                    | 105 mg/mL by Refractometry                                 |
| Puffer                           | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                    |
| Target-Kategorie       | Rabbit                                                                                                                                                                                                                                                         |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:20,000 - 1:100,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:10,000                                                                                                                                                                                    |
| Anwendungsbeschreibung | Anti-Rabbit IgG secondary antibody is suitable for use in various immunoassays. Specific conditions for reactivity and signal detection should be optimized by the end user. This secondary antibody anti-Rabbit is ideal for investigators who routinely perf |
