| Artikelname              | p13 Antibody, IgG1, Clone: [BM3], Mouse, Monoclonal                                                           |
| Artikelnummer            | ROC-200-301-277                                                                                               |
| Hersteller Artikelnummer | 200-301-277                                                                                                   |
| Alternativnummer         | ROC-200-301-277                                                                                               |
| Hersteller               | Rockland Immunochemicals                                                                                      |
| Wirt                     | Mouse                                                                                                         |
| Kategorie                | Antikörper                                                                                                    |
| Spezies Reaktivität      | Human                                                                                                         |
| Immunogen                | A BALB/c mouse was immunized with nuclei from Pokeweed mitogen stimulated human peripheral blood lymphocytes. |
| Konjugation              | Unconjugated                                                                                                  |
| Klonalität               | Monoclonal                                                                                                    |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                                                          |
| Klon-Bezeichnung         | [BM3]                                                                                                         |
| Isotyp                   | IgG1                                                                                                          |
| NCBI                     | <a href="#">51013</a>                                                                                         |
| UniProt                  | <a href="#">Q9Y3B2</a>                                                                                        |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                    |

|                        |                                                                                                                                                    |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid (sterile filtered)                                                                                                                          |
| Target-Kategorie       | Human                                                                                                                                              |
| Antibody Type          | Primary Antibody                                                                                                                                   |
| Application Verdünnung | ELISA: 1:5,000 - 1:20,000, Flow Cytometry: User Optimized, IHC: 1:100, IP: 1:100, WB: 1:500 - 1:5,000                                              |
| Anwendungsbeschreibung | This antibody is suitable for flow cytometry and immunohistochemistry-frozen section. The antibody does not stain tissue after paraffin treatment. |
