|                        |                                                                                                                                                                                                              |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                                                   |
| Formulierung           | Liquid (sterile filtered)                                                                                                                                                                                    |
| Target-Kategorie       | Human                                                                                                                                                                                                        |
| Antibody Type          | Primary Antibody                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:40,000, WB: 1µg/mL                                                                                                                                                                                  |
| Anwendungsbeschreibung | Anti-ERK 2 (MOUSE) FITC conjugated antibody is suitable for use in ELISA and Western Blotting. Specific conditions of reactivity should be optimized by the end user. Expect a band of approximately 41 kDa. |
