| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                      |
| Application Verdünnung | ELISA: 1: 10,000, WB: 1ug/ml                                                                                                                                                                                                                          |
| Anwendungsbeschreibung | Anti-KAT II antibody is useful for ELISA, immunohistochemistry, and Western Blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately ~49kDa corresponding to the appropriate cell lysate or extract. |
