### Mouse IgM (mu chain) Antibody Texas Red(TM) Conjugated, Goat, Polyclonal ROC-610-1907

|                          |                                                                          |
|--------------------------|--------------------------------------------------------------------------|
| Artikelname              | Mouse IgM (mu chain) Antibody Texas Red(TM) Conjugated, Goat, Polyclonal |
| Artikelnummer            | ROC-610-1907                                                             |
| Hersteller Artikelnummer | 610-1907                                                                 |
| Alternativnummer         | ROC-610-1907                                                             |
| Hersteller               | Rockland Immunochemicals                                                 |
| Wirt                     | Goat                                                                     |
| Kategorie                | Antikörper                                                               |
| Applikation              | DOT                                                                      |
| Spezies Reaktivität      | Mouse                                                                    |
| Immunogen                | Mouse IgM whole molecule                                                 |
| Konjugation              | Texas Red                                                                |
| Klonalität               | Polyclonal                                                               |
| Konzentration            | 2.0 mg/mL by UV absorbance at 280 nm                                     |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2               |
| Formulierung             | Lyophilized                                                              |
| Target-Kategorie         | Mouse                                                                    |
| Antibody Type            | Secondary Antibody                                                       |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | FLISA: 1:10,000 - 1:50,000, Flow Cytometry: 1:500 - 1:2,500, IF Microscopy: 1:1,000 - 1:5,000                                                                                                                                                                  |
| Anwendungsbeschreibung | Anti-Mouse IgM antibody Texas Red Conjugated has been tested by Dot Blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, in |
