## Product Datasheet

### Mouse IgG (H&L) Antibody Texas Red(TM) Conjugated, Gallus, Polyclonal ROC-610-9902

|                          |                                                                       |
|--------------------------|-----------------------------------------------------------------------|
| Artikelname              | Mouse IgG (H&L) Antibody Texas Red(TM) Conjugated, Gallus, Polyclonal |
| Artikelnummer            | ROC-610-9902                                                          |
| Hersteller Artikelnummer | 610-9902                                                              |
| Alternativnummer         | ROC-610-9902                                                          |
| Hersteller               | Rockland Immunochemicals                                              |
| Wirt                     | Gallus                                                                |
| Kategorie                | Antikörper                                                            |
| Applikation              | DOT                                                                   |
| Spezies Reaktivität      | Mouse                                                                 |
| Immunogen                | Mouse IgG whole molecule                                              |
| Konjugation              | Texas Red                                                             |
| Klonalität               | Polyclonal                                                            |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                  |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2            |
| Formulierung             | Lyophilized                                                           |
| Target-Kategorie         | Mouse                                                                 |
| Antibody Type            | Secondary Antibody                                                    |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | FLISA: 1:10,000 - 1:50,000, Flow Cytometry: 1:500 - 1:2,500, IF Microscopy: 1:1,000 - 1:5,000                                                                                                                                                                  |
| Anwendungsbeschreibung | Anti-Mouse IgG Texas Red Antibody has been tested by dot blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including mul |
