| Artikelname                      | Rabbit F(ab)2 anti-Cat IgG (H+L)-Alk. Phos., MinX none, ALP, Polyclonal , AP |
| Artikelnummer                    | ROC-702-405-002                                                              |
| Hersteller Artikelnummer         | 702-405-002                                                                  |
| Alternativnummer                 | ROC-702-405-002                                                              |
| Hersteller                       | Rockland Immunochemicals                                                     |
| Wirt                             | Rabbit                                                                       |
| Kategorie                        | Antikörper                                                                   |
| Applikation                      | ELISA,IHC,WB                                                                 |
| Spezies Reaktivität              | Feline                                                                       |
| Immunogen                        | Cat IgG whole molecule                                                       |
| Konjugation                      | Alk. Phos.                                                                   |
| Format                           | F(ab')2                                                                      |
| Spezifität                       | IgG (H+L)                                                                    |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                                          |
| Klonalität                       | Polyclonal                                                                   |
| Konzentration                    | 0.5 mg/mL by UV absorbance at 280 nm                                         |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Puffer                 | 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Glycerol, pH 8.0                                                                                                                                      |
| Formulierung           | Liquid (sterile filtered)                                                                                                                                                                                                                                      |
| Target-Kategorie       | Cat                                                                                                                                                                                                                                                            |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:2,000 - 1:10,000, IHC: 1:200-1:1,000, WB: 1:500-1:2,500                                                                                                                                                                                               |
| Anwendungsbeschreibung | F(ab)2 Anti-Cat IgG Alkaline Phosphatase Conjugated Antibody has been tested by ELISA and is suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring lot-to-lot consistency. This produ |
