| Produktbeschreibung      | PLC Gamma 2 antibody LS-C331963 is an unconjugated rabbit polyclonal antibody to PLC Gamma 2 (PLCG2) from human. It is reactive with human and mouse. Validated for IF, IHC, IP and WB....                                                                               |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                               |

|                        |                                                                               |
|------------------------|-------------------------------------------------------------------------------|
| Konzentration          | 0.61 mg/ml                                                                    |
| NCBI                   | <a href="#">5336</a>                                                          |
| Puffer                 | PBS, pH 7.3, 50% Glycerol                                                     |
| Reinheit               | Affinity purified                                                             |
| Formulierung           | PBS, pH 7.3, 50% Glycerol                                                     |
| Application Verdünnung | IF (1:20 - 1:100), IHC (1:50 - 1:200), IP (1:20 - 1:100), WB (1:500 - 1:2000) |
| Anwendungsbeschreibung | The predicted MW is 147kDa, while the observed MW by Western blot was 175kDa. |
