| Artikelname              | Polyclonal Rabbit anti-Human Histone H3 Antibody (Di-Methyl-Lys9, IHC, IF, WB) LS-C335230                                                                                                                                  |
| Artikelnummer            | LS-C335230-100                                                                                                                                                                                                             |
| Hersteller Artikelnummer | LS-C335230-100                                                                                                                                                                                                             |
| Alternativnummer         | LS-C335230-100                                                                                                                                                                                                             |
| Hersteller               | LifeSpan Biosciences                                                                                                                                                                                                       |
| Wirt                     | Rabbit                                                                                                                                                                                                                     |
| Kategorie                | Antikörper                                                                                                                                                                                                                 |
| Applikation              | ChIP, DOT, IF, IHC, IP, WB                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                          |
| Immunogen                | A synthetic methylated peptide corresponding to residues surrounding K9 of human histone H3.                                                                                                                               |
| Konjugation              | Unconjugated                                                                                                                                                                                                               |
| Produktbeschreibung      | Histone H3 antibody LS-C335230 is an unconjugated rabbit polyclonal antibody to Histone H3 (Di-Methyl-Lys9) from human. It is reactive with human, mouse and rat. Validated for ChIP-Seq, ChIP, DB, IF, IHC, IP and WB.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                 |
| Puffer                   | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                                                                                                                                                              |

|                        |                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Affinity purified                                                                                                |
| Formulierung           | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                                                    |
| Application Verdünnung | ChIP-Seq (1:50 - 1:200), ChIP, DB, IF (1:50 - 1:200), IHC (1:50 - 1:200), IP (1:50 - 1:200), WB (1:500 - 1:2000) |
| Anwendungsbeschreibung | The predicted MW is 15kDa, while the observed MW by Western blot was 18kDa.                                      |
