| Artikelname              | Human BMP4 Protein (Recombinant His, N-Terminal) - LS-G132736                                                                                                                                                  |
| Artikelnummer            | LS-G132736-50                                                                                                                                                                                                  |
| Hersteller Artikelnummer | LS-G132736-50                                                                                                                                                                                                  |
| Alternativnummer         | LS-G132736-50                                                                                                                                                                                                  |
| Hersteller               | LifeSpan Biosciences                                                                                                                                                                                           |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                               |
| Produktbeschreibung      | BMP4 (Bone morphogenetic protein 4) is a member of the bone morphogenetic protein family, which is involved in bone and cartilage development, specifically tooth and limb development and fracture repair.... |
| Molekulargewicht         | 48kDa                                                                                                                                                                                                          |
| Tag                      | His, N-Terminal                                                                                                                                                                                                |
| NCBI                     | <a href="#">652</a>                                                                                                                                                                                            |
| Quelle                   | E. coli                                                                                                                                                                                                        |
| Reinheit                 | Greater than 97%                                                                                                                                                                                               |
| Formulierung             | Lyophilized from 20mM Tris, 150mM NaCl, pH8.0, 1mM EDTA, 1mM DTT, 0.01% SKL, 5% Trehalose, Proclin300.                                                                                                         |
