| Artikelname              | Mouse Insulin Protein (Recombinant His, N-Terminal) (Phe25-Ser54) - LS-G132807                                                                                                                                      |
| Artikelnummer            | LS-G132807-5                                                                                                                                                                                                        |
| Hersteller Artikelnummer | LS-G132807-5                                                                                                                                                                                                        |
| Alternativnummer         | LS-G132807-5                                                                                                                                                                                                        |
| Hersteller               | LifeSpan Biosciences                                                                                                                                                                                                |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                    |
| Produktbeschreibung      | INS (Insulin) is a peptide hormone produced by beta cells of the pancreatic islets, which decreases blood glucose concentration and increases cell permeability to monosaccharides, amino acids and fatty acids.... |
| Molekulargewicht         | 10kDa                                                                                                                                                                                                               |
| Tag                      | His, N-Terminal                                                                                                                                                                                                     |
| NCBI                     | <a href="#">3630</a>                                                                                                                                                                                                |
| Quelle                   | E. coli                                                                                                                                                                                                             |
| Reinheit                 | Greater than 97%                                                                                                                                                                                                    |
| Formulierung             | Lyophilized from 20mM Tris, 150mM NaCl, pH8.0, 0.01% SKL, 5% Trehalose.                                                                                                                                             |
