| Immunogen                | Recombinant human CDH16 protein                                                                                                                                                                                                                               |
| Produktbeschreibung      | This antibody recognizes a protein of 130kDa, identified as Ksp-cadherin. Cadherins form a superfamily of related glycoproteins that mediate calcium-dependent cell adhesion and transmit signals from the extracellular matrix to the cytoplasm. Cadherin... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
