| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                             |
| Wirt                     | Mouse                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | FC, IF, IHC, WB                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Immunogen                | A recombinant fragment containing amino acids 511-580 of human glypican-3                                                                                                                                                                                      |
| Produktbeschreibung      | Glypican-3 (GPC3) is a glycosylphosphatidyl inositol-anchored membrane protein, which may also be found in a secreted form. Anti-GPC3 has been identified as a useful tumor marker for the diagnosis of hepatocellular carcinoma (HCC), hepatoblastoma, mel... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [1G12]                                                                                                                                                                                                                                                         |
| Molekulargewicht         | ~67kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                              |
