| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human Inhibin alpha protein (around aa 233-362) (exact sequence is proprietary)                                                                                                                                                       |
| Produktbeschreibung      | It recognizes a 47kDa protein, which is identified as alpha sub-unit of Inhibin. It is a gonadal protein that preferentially suppresses the secretion of pituitary follicle-stimulating hormone (FSH). Inhibin comprises two subunits, Inhibin A and Inhib... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rINHA/6919]                                                                                                                                                                                                                                                  |
| Molekulargewicht         | 47kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                              |
