| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa1-200) of human KNG1 protein (exact sequence is proprietary)                                                                                                                                                                   |
| Produktbeschreibung      | Kininogen is a 644 amino acid precursor protein that is expressed by the KNG1 gene and is secreted into blood plasma. Due to alternative splicing events, several Kininogen protein derivatives exist, including Kininogen LC and Kininogen HC, both of wh... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [KNG1/7423]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 64 kDa (heavy chain), 53 kDa (light chain)                                                                                                                                                                                                                    |

|              |                                                                                                                                                                        |
