| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Canine, Feline, Guinea pig, Hamster, Human, Mouse, Rat                                                                                                                                                                                                        |
| Immunogen                | Recombinant full-length human MSH2 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | Mutations in DNA mismatch repair genes are associated with hereditary nonpolyposis colorectal cancer (HNPCC). Initially, inherited mutations in the MSH2 and MLH1 homologs of the bacterial DNA mismatch repair genes MutS and MutL were found at high fre... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rMSH2/6548]                                                                                                                                                                                                                                                  |
| Molekulargewicht         | 100kDa                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                        |
