## Product Datasheet

### **Nucleoside Diphosphate Kinase A / nm23-H1 Antibody, IgG2b, Clone: [NME1/2738], Mouse, Monoclonal NBT-4830-MSM8-P1**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human NME1 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | The nm23 gene, a potential suppressor of metastasis, was originally identified by differential hybridization between two murine melanoma sub-lines, one with a high and the second with a low metastatic capacity. Highly metastatic sub-lines exhibit muc... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [NME1/2738]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 17kDa                                                                                                                                                                                                                                                         |
