| Immunogen                | Recombinant full-length human transgelin (TAGLN) protein.                                                                                                                                                                                                     |
| Produktbeschreibung      | This MAb recognizes a 22kDa protein, identified as Transgelin, also designated SM22-alpha. It may cross-react with SM22-beta. Transgelin is expressed abundantly in smooth muscle cells. The human transgelin gene encodes a 201 amino acid protein that c... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
