| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Synthetic peptide corresponding to residues within aa 200-300 of human CD38 (exact sequence is proprietary)                                                                                                                                                   |
| Produktbeschreibung      | CD38 is a type II transmembrane glycoprotein that is present on early B- and T-cell lineages and activated B- and T-cells but is absent from most mature resting peripheral lymphocytes. CD38 is found on thymocytes, pre-B cells, germinal center B-cells... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rCD38/6447]                                                                                                                                                                                                                                                  |
| Molekulargewicht         | ~45kDa (Glycoprotein), 35kDa (protein core)                                                                                                                                                                                                                   |

|              |                                                                                                                                                                           |
