| Hersteller               | Monosan                                                                                                                                                                                                                                                                                                           |
| Wirt                     | Mouse                                                                                                                                                                                                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                                                                        |
| Applikation              | IHC-P                                                                                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                                                             |
| Immunogen                | Prokaryotic recombinant protein corresponding to the N-terminal region of the A form of the human progesterone receptor generating clone 16 and a prokaryotic recombinant protein corresponding to the 164 amino acid N-terminal region unique to the B form of the progesterone receptor generating clone SAN27. |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                                                        |
| Klon-Bezeichnung         | [16SAN27 + 16]                                                                                                                                                                                                                                                                                                    |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                                                                              |
| Puffer                   | Tissue culture supernatant with sodium azide                                                                                                                                                                                                                                                                      |
