| Hersteller               | Biomatik Corporation                                                                                                                                                                                                                                                                   |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Human ATPase, Na <sup>+</sup> /K <sup>+</sup> Transporting Alpha 2 Polypeptide (ATP1a2) ELISA Kit for detecting ATP1a2 in serum, plasma, tissue homogenates, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 0.312-20ng/ml. Sensitivity: 0.105n... |
| Detektionsbereich        | 0.312-20ng/ml                                                                                                                                                                                                                                                                          |
| Sensitivitaet            | 0.105ng/ml                                                                                                                                                                                                                                                                             |
| Formulierung             | 96-Well Plate                                                                                                                                                                                                                                                                          |
| Proben                   | Serum, Plasma, Tissue Homogenates, Other Biological Fluids                                                                                                                                                                                                                             |
| Target-Kategorie         | ATPase, Na <sup>+</sup> /K <sup>+</sup> Transporting Alpha 2 Polypeptide (ATP1a2)                                                                                                                                                                                                      |
