| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Human ATPase, H <sup>+</sup> /K <sup>+</sup> Exchanging Beta Polypeptide (ATP4b) ELISA Kit for detecting ATP4b in tissue homogenates, other biological fluids. Species Reactivity: Human (Homo sapiens). Detection Range: 0.156-10ng/ml. Sensitivity: 0.059ng/ml. Format: 96-Well P... |
| Detektionsbereich        | 0.156-10ng/ml                                                                                                                                                                                                                                                                          |
| Sensitivitaet            | 0.059ng/ml                                                                                                                                                                                                                                                                             |
| Formulierung             | 96-Well Plate                                                                                                                                                                                                                                                                          |
| Proben                   | Tissue Homogenates, Other Biological Fluids                                                                                                                                                                                                                                            |
| Target-Kategorie         | ATPase, H <sup>+</sup> /K <sup>+</sup> Exchanging Beta Polypeptide (ATP4b)                                                                                                                                                                                                             |
