| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Mouse Wolfram Syndrome Protein 1 (WFS1) CLIA Kit for detecting WFS1 in tissue homogenates, other biological fluids. Species Reactivity: Mouse (Mus musculus). Detection Range: 13.7-10,000pg/ml. Sensitivity: 6.2pg/ml. Format: 96-Well Plate. Assay Type:... |
| Detektionsbereich        | 13.7-10,000pg/ml                                                                                                                                                                                                                                              |
| Sensitivitaet            | 6.2pg/ml                                                                                                                                                                                                                                                      |
| NCBI                     | <a href="#">22393</a>                                                                                                                                                                                                                                         |
| Formulierung             | 96-Well Plate                                                                                                                                                                                                                                                 |
