| Produktbeschreibung      | Recombinant Human Cancer/testis antigen 1 (CTAG1A) is a purified Recombinant Protein. Purity: >85% as determined by SDS-PAGE. Host: E. coli. Endotoxin Level: Not Tested. Species: Human (Homo sapiens). Target Name: CTAG1A. Target Synonyms: Autoimmunog... |
| Molekulargewicht         | 21.5kDa                                                                                                                                                                                                                                                       |
| Tag                      | N-Terminal 10Xhis-Tagged                                                                                                                                                                                                                                      |
| Puffer                   | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0.                            |

|                  |                                                                                                                                                                                                    |
