| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | Control, SDS-PAGE, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Recombinant Human Immunoglobulin M (IgM) is a purified Prokaryotic Protein. Purity: >90% by SDS-PAGE. Host: E. coli. Endotoxin Level: <1.0EU per 1ug, by the LAL method. Species: Human (Homo sapiens). Target Name: Immunoglobulin M (IgM). Target Synony... |
| Molekulargewicht         | 59kDa                                                                                                                                                                                                                                                         |
| Tag                      | N-Terminal His Tag                                                                                                                                                                                                                                            |
| Puffer                   | PBS, pH7.4, containing 0.01% SKL, 5% Trehalose.                                                                                                                                                                                                               |
| Expression System        | Prokaryotic Expression                                                                                                                                                                                                                                        |

|                  |                        |
|------------------|------------------------|
| Reinheit         | >90% by SDS-PAGE       |
| Formulierung     | Freeze-dried powder    |
| Target-Kategorie | Immunoglobulin M (IgM) |
