| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | All                                                                                                                                                                                                                                                           |
| Immunogen                | A synthetic peptide corresponding to Myc tag.                                                                                                                                                                                                                 |
| Konjugation              | HRP                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Protein tags are peptide sequences genetically grafted onto a recombinant protein. Often these tags are removable by chemical agents or by enzymatic means, such as proteolysis or intein splicing. Tags are attached to proteins for various purposes.Epi... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [AMC0048]                                                                                                                                                                                                                                                     |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                       |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Affinity purification                                                                                                                                 |
| Sequenz                | EQKLISEEDL                                                                                                                                            |
| Target-Kategorie       | Myc                                                                                                                                                   |
| Antibody Type          | Primary Antibody                                                                                                                                      |
| Application Verdünnung | WB,1:5000 - 1:20000 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |
| Anwendungsbeschreibung | Cross-Reactivity: Species independent. Shipping: Ice Bag                                                                                              |
