| Immunogen                | Synthetic peptide. This information is considered to be commercially sensitive.                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                           |
| Produktbeschreibung      | This gene encodes a tyrosine protein kinase, which maybe involved in the regulation of mast cell degranulation, and erythroid differentiation. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [ARC1597]                                                                                                                                                                                                                                              |
| Molekulargewicht         | 56kDa/59kDa                                                                                                                                                                                                                                            |

|                        |                                                                                                                                                                                                                                                                                          |
