| Hersteller               | ABclonal                                                                                                                                                                                                                                                   |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                      |
| Immunogen                | Serum, plasma, cell culture supernatant, and other biological fluids.                                                                                                                                                                                      |
| Konjugation              | Biotin                                                                                                                                                                                                                                                     |
| Produktbeschreibung      | The ELISA (Enzyme-Linked Immunosorbent Assay) kit is an in vitro enzyme-linked immunosorbent assay for the quantitative measurement of samples in Serum, plasma, cell culture supernates, cell lysates, tissue homogenates and other biological fluids.... |
| Konzentration            | 18.63 pg/mL                                                                                                                                                                                                                                                |
| Molekulargewicht         | 4 hours                                                                                                                                                                                                                                                    |
| Detektionsbereich        | 62.5-4000 pg/mL                                                                                                                                                                                                                                            |
| Sensitivitaet            | 18.63 pg/mL                                                                                                                                                                                                                                                |
