## Product Datasheet

### **Histone H3.1 (mono-methyl R2) recombinant monoclonal antibody, clone 4G5, Clone: [4G5], Monoclonal ABN-RAB04191**

|                          |                                                                                                                                    |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Histone H3.1 (mono-methyl R2) recombinant monoclonal antibody, clone 4G5, Clone: [4G5], Monoclonal                                 |
| Artikelnummer            | ABN-RAB04191                                                                                                                       |
| Hersteller Artikelnummer | RAB04191                                                                                                                           |
| Alternativnummer         | ABN-RAB04191-100                                                                                                                   |
| Hersteller               | Abnova                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                         |
| Applikation              | ELISA, ICC, IF, WB                                                                                                                 |
| Spezies Reaktivität      | Human                                                                                                                              |
| Immunogen                | Original antibody is raised against a synthetic monomethyl peptide corresponding to residues surrounding R2 of human histone H3.1. |
| Produktbeschreibung      | Rabbit recombinant monoclonal antibody raised against human Histone H3.1....                                                       |
| Klonalität               | Monoclonal                                                                                                                         |
| Klon-Bezeichnung         | [4G5]                                                                                                                              |
| UniProt                  | 8350                                                                                                                               |
| Puffer                   | In PBS, pH7.4 (150mM NaCl, 50% glycerol and 0.02% sodium azide)                                                                    |
| Formulierung             | Liquid                                                                                                                             |

|                        |                                                                                                                                                                   |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | HIST1H3A                                                                                                                                                          |
| Application Verdünnung | ELISAImmunocytochemistry (1:50-1:500)Immunofluorescence (1:30-1:200)Western Blot (1:500-1:2000)The optimal working dilution should be determined by the end user. |
